7	Conduct, Verification and Technical Issues	4
8	Submission and Judging	5
9	Violations and Disqualification	5
10	Clarifications, Technical Problems and Complaints	6
11	Final Conditions	6

1 Registration, Identification and Kits

- 1.1 Participants must complete official registration using their **real name** and valid student or institutional identification.
- 1.2 Participants must carry and present their **valid institutional ID card** to enter the competition venue. Participants without a valid institutional ID card **will not be allowed to participate**.
- 1.3 Participants must be **physically present at the event** to receive their kits. No alternative collection or courier option will be available. Participants who are not present will not receive their kits.

2 Devices and Internet Access

- 2.1 Devices will be provided for **Prompt Battle, Vibe Coding and Datathon**. Among these competitions, participants may bring their own devices **only for Vibe Coding**.
- 2.2 Internet access will be available for participants using personal devices; however, **network speed and stability cannot be guaranteed**. Participants bringing their own devices are requested to bring a **backup internet connection**, such as a modem or mobile hotspot.

3 Reporting Time and Late Entry

- 3.1 **Solo competitions (Vibe Coding, Prompt Battle and Datathon):** Participants must report to their assigned venue on time. Late entry will be allowed for up to **10 minutes** after the competition starts. No entry will be permitted after 10 minutes, and **no additional time will be granted** for late entry.
- 3.2 **AI Hackathon:** Participants may join up to **1 hour** after the competition starts. However, **no additional time or deadline extension** will be provided for late entry.

4 Fair Participation and Original Work

- 4.1 No participant or team may receive **external human assistance** during an active competition. Any participant or team found receiving such assistance will be **immediately disqualified**, and their participation in that competition will be cancelled.
- 4.2 Sharing prompts, code, solutions, files, datasets, answers, credentials or contest information with another participant or team is **strictly prohibited**.
- 4.3 Account sharing, impersonation or participating on behalf of another person is **strictly prohibited**.
- 4.4 Submissions must be the participant's or team's **own competition work**. Copying another participant's solution or submission is strictly prohibited.

5 AI Tools and Account Use

- 5.1 There is **no limitation on the use of AI tools**. Participants may use either **free or Pro (paid) versions** during the competition.
- 5.2 Participants are responsible for access to their chosen AI tools. The organizers are not responsible for downtime, rate limits, login issues, subscription restrictions or exhausted credits.
- 5.3 Participants must use **their own AI accounts**. Sharing or using another participant's AI account is strictly prohibited.
- 5.4 Participants are responsible for **everything they submit**, including content or code produced using AI.
- 5.5 AI tools must not be used to obtain leaked or private contest materials, access restricted information, impersonate others or bypass contest rules.
- 5.6 If requested by the judges, participants must **disclose the AI tools or models used** and show relevant prompt or development history.

6 Submissions and Deadlines

- 6.1 Participants are responsible for checking that their final submission is **complete, accessible and submitted in the required format before the deadline**.
- 6.2 **Late submissions will not be accepted** unless the organizers announce an extension because of an official technical problem.

7 Conduct, Verification and Technical Issues

- 7.1 Participants must follow the instructions of the **organizers, invigilators and judges** throughout the competition.
- 7.2 Participants must not intentionally manipulate, exploit, jailbreak, reverse-engineer or interfere with the competition platform, evaluation system, hidden tests, system prompts or judging infrastructure.
- 7.3 Participants must not interfere with the contest network, submission system, devices or other participants.
- 7.4 Participants may be asked to show their screen, device, prompt history, code, notebook, repository or other relevant work for **integrity verification**.
- 7.5 Any technical problem must be reported to the organizers **immediately during the competition**.
- 7.6 Harassment, abusive behaviour, deliberate disruption, cheating, plagiarism or other unfair conduct may result in **disqualification**.

8 Submission and Judging

- 8.1 Only submissions made through the **official submission method within the announced deadline** will be evaluated.
- 8.2 The competition-specific problem statement will define the **required submission format and judging criteria**.
- 8.3 Judges may use automated evaluation, hidden tests, rubric-based evaluation, live demonstration or technical questioning, depending on the competition.
- 8.4 Any leaderboard or preliminary result is **unofficial until the organizers complete final verification**.
- 8.5 In the event of a tie, the **competition-specific tie-breaking rule announced by the judges** will apply.

9 Violations and Disqualification

- 9.1 A participant or team may receive a **warning, score penalty, submission rejection or disqualification**, depending on the seriousness of the violation. Violations include:
 - Cheating or unauthorized collaboration.
 - Plagiarism or copying another participant's work.
 - Account sharing or impersonation.
 - Using prohibited resources or assistance.
 - Falsifying submission or verification evidence.
 - Interfering with contest systems or other participants.
 - Refusing to follow reasonable contest-integrity instructions.
 - Serious misconduct or rule violations.

10 Clarifications, Technical Problems & Complaints

- 10.1 Questions about a problem or rule must be sent through the **official clarification channel** or to the **designated contest official**.
- 10.2 If a clarification affects all participants, the organizers will communicate it to everyone concerned.
- 10.3 **Technical issues must be reported immediately.** Participants should not wait until the contest is over to report a problem that occurred during the contest.
- 10.4 Any complaint about a rule violation or contest process must be submitted through the **official channel with relevant evidence**.
- 10.5 Judges' decisions on technical evaluation and final results are **final after the official review process**.

11 Final Conditions

- 11.1 Participants must follow this rulebook together with the **official instructions for their specific competition**.
- 11.2 If a competition-specific instruction differs from a general rule, the **officially announced competition-specific instruction will apply**.
- 11.3 The organizers may issue necessary clarifications during the event to maintain fairness and smooth operation.
- 11.4 Participation in **AI DEV FEST 2026** means that the participant accepts the applicable competition rules and official instructions.
